But we are content to wait for foller returns before claiming the victory.

OUR CANDIDATE FOR SENATOR .- It is with much satisfaction that we place at the head of the county ticket the name of Col. Z. P. Burdick, as the Republican candidate for Senator, from this sonatorial districe. He represented his sessembly district last winter in the legislature, and his attention to the interests of his constituents and the ability and uniform courtesy with which he discharged his duties as a legislator, won for him the respect of his colleagues. He will make a sound and influential member of the senate.— Being a practical farmer and working man, that large and intelligent class will be well represented, while his intelligence and excellent business capacity will chable him to do justice to the interests more particularly pertaining to our city, as well as there of the county.—Janesville Ga-

sufficient it on to law their line from Columbus to the Wisconsin river, and as the track is pretty much all graded, will immediately begin to put it down and set the road in operation as far west as Leeds this season. No road in this State is doing a better business than this, and we see nothing to prevent its speedy extension into the fertile Baraboo Valley and ultimately to the "Father of Watera."

Sad Accident at Prairie of Chien .- On Saturday last, a son of Mr. Szecosa, of Prairie du Obien, a lad of 10 or 12 years of age, was killed by the accidental discharge of a gun, in the hands of a playmate. He and another boy had been playing together on a vacant lot, when, by some mishap, the gun in the hands of his companion, went off, taking fatal effect upon little SERCORS. The other boy was so frightened that the only account he could give of the occur-

CAPITULATED .- One of the considerations offered to the New York members of Congress, for voting for Lecompton, was the privilege of appointing a number of their friends to places in the N. Y. Custom House. Collector SCHELL at first opposed this corrupt dictation of the Administration, but has finally given in, to save his own head.

Judge Potter in Walworth County Darien, October 11.

To the Editor of the Free Democrat : Old Walworth is wide awake; and will be "true to herself" in the pending Political Contest. John F. Potter's manly course meets the enthusiastic approbation of all true Republicans, and is loudly applauded by many substantial Democrats. An old Jacksonian reading the remark made in the News, some weeks since, that in Congress we want mind, not mucele, exclaimed vehemently:—"Well, in these times our Congressman should possess mind and muscle too. Potter is the man."

FATAL RAILBOAD ACCIDENT-FOUR MEN AL-FATAÉ RALLEGAD ACCIDENT—FOUR MEN ALMOST INSTANTAT KILLED.—About four o'clock
Saturday morning, an accident occurred on the
Obic and Mississippi Ralitond, near Shoal's Station, about 150 miles from this city, which resulted in the almost instant death of four men, all
employees on the road. A freight train from the
East and another from the West, came into collision at the point named, demolishing one of the
tenders, injuring the engines, and badly smashing several freight cars. The conductor on the

CADWALLADER C. WASHBURNE. CHARLES BILLINGHURST.

Republican County Convention THE Republican Electers of the several Wards and Towns in the County of Milwaukee are invited to meet at their respective head-quarters, on Enturday, Oct.16, and electibree delegates from each Town and Ward to meet in County Convention, at the Court House, in the City of Milwaukee, at 12 o'clock on Saturday, October 23d. to organize for the November election and decide upon the proper course to take with reference to the County BY ORDER OF THE COURTY COMMITTEE. Milwaukee, Oct. 2, 1855.

The Position of Judge Larrabec.

As a matter of common justice to Judge Las RIBER, who thinks that his views have been mis represented in the Fentinet, we publish this morning a rather elaborate letter from him, "defining his position." It modifies somewhat, the substantially confirming, the report of his speech given by the Conservator; for though the Judge denies, and no doubt truly, having used the language ascribed to him, his long and labored argument to prove the African an infe tior race, and his illogical inference, that because inferior, therefore it must be enclaved, or worse show even more clearly than words, the real opinions of the Demogratic candidate for Congress in the Third District.

On two points of vital interest, the Judge "shows his hand" fairly. He sustains the Dred Scott decision, and in the Illinois contest, "all his sympathies are with Senator Douglas."-This, of course, is an open declaration against Mr. Buchasan, whose "sympathics" are very decidedly the other way. How the Buchanas men in his District are to reconcile the support of Judge LARRABER with their allegiance to the Administration, is for them, not for us, to say.

Upon the question of "Labor," the Judge agrees with the Sentinel, and repudiates alike the aristocratic notions of his political yoke-fellaw, Judge Hammond, of South Caroline, and the sneers of the Milwaukee News. But he does not seem to see that African Slavery is necessarily antagonistic to the interests, as it detracts from the dignity, of FEER LABOR.

The End of the Story.

The News, of the 201 of September, in the course of an article designed to make its readers believe that our Republican candidates for Congress were aimid to meet their opponents on the stump, ventured the following assertion :

It is siready known to our readers that Messes. Brown and Larrabee have not been successful in their (fforts to induce their competitors, Mccass. l'otter and Billinghurst, to discuss before the public the questions involved in the cauvers in the First and Third Districts. We at once pronounced this statement a pure

fiction, and so it has proved. The prompt acceptance, by Mr. BILLINGHERST, of Judge LARRAnka's vannting challenge, has already been pub -Pahed in the Sentinel. As to Judge Porers, let him speak for himself:

BAST TROT, Wis., Oc. 1, '58.

BESIAH BROWS, Esq.—

Dear Sir:—I notice in the Milwaukee News, of the 23d uit, a statement that you have been unable or unsuccessful in your efforts to induce me to discuss with you, before the public, the questions involved in the canving in this district. Not help aware of any of the product in the canving in this district.

It proves, as we surmised, that Mr. Porrunhes ther paper. But Judge Potrze, like Mr. Bil-LIKEBURST, hes promptly taken the News at its word, and given Mr. Brown the opportunity to meet him before the Prople, if so disposed. Mr. Brown has the floor!

Political Demoralization :- The Fruits of Presidential Bothing. We have deprecated from the first impolitic and unpatival opposition to the regular Democratic organization in Illinois, initiated by the President of the United States and carried on by his salaried appointers. We have done this not solely on account of its influence on the Demotracy of that State, but because of its direct tendency and encouragement to party demoral-ization in every State throughout the Union.— Current events show that our fears in this re-

Current events show that our fears in this respect were well founded. The disgraceful anti-buchanan holt in California was a logical, though an unworthy, sequence to the anti-Douglas bolt in Illinois; and we regret to see that here in Michael the Democracy in a few of unesoto, pertions of the Democracy in a few of the counties, find at once excute and justification to bolting the resulter nominations, in the fact for bolling the leguler nominations, in the fact that the National Administration, in the Illinois canaes, illustrates by the same course of action its devotion to the principles and usages of the party.—St. Paul Pioneer, Oct. 8. of the 5th inst. I find the following article: Judge Larrabce Defending Slavery and Declazing for Bouglas. shed Decarraing for Louisians.
The Conservator of the 30th ult, gives a sketch of Judge Larraser's speech at Menasha, from which we take the following extract, and commend it to the attention of our readers:

from which we take the following extract, and commend it to the attention of our readers:

"It was neeless to agitate the question of Slavery—it was not only settled by law, and by the decisions of the highest tribunal of the land; but it was rettled by Jehovah himself. Slavery to servitude was the normal or notural condition of the African was a remarkable feature of his pature. He loved to be led. He manted a master and if the present form of slavery was abolished, it would only assume another and as bad form. Agitation of the slavery question, or the success of the Republican party would endanger the stability of the Union, and he would rather see every State in the Union a Slave State than to see such a calamity befull our Nation—DOUGLAS was his idd. Druglae was a patriot and a hero, and he prayed to God that he might be successful in his present struggle."

Administration and the National Democracy:

The Douglas Crvil. War.—There are some who believe that Congress council legislate on this subject, (slavery) in the territories at all; other who believe it may legislate on the subject, potential to the present for the purpose of cstablishing or excluding alarety; and others who hold that, although Congress is pledged by the Kansas-Nebraska bill, and forbidden not to do.

We hestitate and to say that it is the most institute, charger above the area managing the extra managing the strategies. than to see such a calamity befall our Nation.

DOUGLAS was his ided. Douglae was a patriot and a hero, and he prayed! to God that he might be successful in his present struggle."

It is quite clear that, with such views of Slave-nt, Judge Lanbarks, it elected to Congress, would vote for any measure that the South should demand, for the encouragement and protection of their "peculiar institution." Whether the above extract is taken from the

editorial columns of the Conservator, or from a sommunication from some irresponsible correspouden', I have no means of knowing; but from whatever source it comes, the writer must have cither misunderstood, or has misrepresented my speech. I did not say that "slavery was settled by Je-

horah himtelf" or any like impigus remark. I did not say that "Slavery was the normal or natural condition of the African ?" nor did I say that "the slave loved to be led," nor that "he In the course of my remarks upon the slavery

issue. I did not say if the entire slave population was set free, that the two races could not live together in a state of either social, or political equality. That at one time I entertained contrary opinion, but had changed it years ago. That it would be an idle boon to give freeom to the slaves of the South, and at the same time deny them social and political equality, and this but few men of any political party were willing to concede. That such a contact hatween the two races would inevitably result in the extermination of the black man, or in his reduction to some form of servitude, what partiquiar form, I could not say, or whether a beter or worse one than the present.

I did say that the races were essentially dis-Heat-intellectually and physically. That in the African, his affectious predominated over his intellect; while in the white man the intellect conquered and held in strict subjection the affestions. That hence the white man was form. ed to found Government, establish law, achieve conquest; and when in contact with the African, would inevitably course him into some form or other of servitude. That he would not only do this because of his ability, but because he was sellish. I said I believed the African to be an immor

tal being, but at the same time almost as incapable of civilization as is the Winnebego Indian. That the African in the United States was out of his place on the cartie, but that we of to-day were not answerable for having brought him here-Old England and New England must bear that sin. That Liverpool and Boston owed their early commercial growth to the African slave trade, in which has merchan't were extensively engaged up to the year 1808. That when the more onlightened policy of the world put an end to the slave trade, the Korthern States abolished Slavery for this reason son, and further, because the laws of climate rendered slave labor valueless. I have at no place or time characterized slavery of any kind as any thing else than an evil, but I have said, and now say, that it would be better for the progress of learning, letters, law and liberty, es effecting the whole human family, that all were slave States, rather than that the American one, was a slave State when the Constitution

We have not the pro-Douglas spaceh of Scontor Brown by us, but remember well that it shoulders Douglas in Illinois, as against the world as it were. In our original notice of it, we proclaimed the belief that the position had been assumed without full information with reference to the late course of Douglas; with reference to his repudiation of the Bred Scott decision, of which he could not have had a knawledge when delive. be could not have had a knowledge when delivcring his (Senator B.'s) speech; and we added that lighe did sustain Douglas. Broese in the field, (and therefore as against Breese, with such knowledge,) we did not perceive how he could hesitate to sustain Mr. Seward, Mr. Hale, or Mr. Wilson, on the call of personal friendship, if such friendship existed in their case on his part,

such friendship existed in their case on his part, as in that of Douglas.

We see no reason whatever to alter our opinion in this particular; and are also as sure that Senate: Brown, on seting this Freeport repudintion of the (to the south) vital point in the Dred South decision, will went his hands of pullical affiliation with Douglar and the new helmstann of his (D.'s) corkboat—ex-Senator Foote—11 that the sun will rise to—morrow.

JURGE DOUGLAVE FREEPORT DECLARATION.—In

JURGE DOUGLAVE FREEDER DEGLARATION. —In he earlier spreaches of Judge Douglas, in his present canvass, there was much that we could present canvass, there was much that we could approve—much to make us desire his election over a radical atolitonia. The declaration noticed above is, however, so complete an abandonment of the only construction of the constitution which can give us any security for our rights, as to render us almost indifferent to the result in Illianis. We should be glad to see the quotation above authoritatively denied by Judgo Douglas. Baily us he acted loss winter, we have haved te give up all hopes of him. But the man who maintains that "the prople of a territory may by lawful means exclude clavecy before it becomes a State," is untrue to the denocratic party and to the Constitution.

Spain and Poungal will not require any sapplies from other countries. In Belgium and Holland there is an average crop; while in the Baltic regions, including northern Germany and western Russia, the yield is below an everage, although high prices may induce exports to some extent. In France there is a fair crop of when and rye, cats being inferior. The cereal crop of England exceeds the average, and a portion of the extraordinary wheat yield of last year still remains in the hands of farmers to be added to this year's has vest. Other breadstuffs are somewhat under the average. In Ireland all kinds of produce are abundant, compared with recent years. The whest crop of Scotland is excellent, other crops being medium and possibly below. On the whole, the United Kingdom will this year require smaller imports of grain than in ordinary seasons. THE DAILY SENTINEL

three months...

My jors like summer birds may Cy,
My hopes, like summer blooms separt
But there's one flower that cannot die,
Thy holy memory in my heart;
No dens lead one lower's oup may fill,
No cantight to its leaves be given,
But the will live and flourish still,
As deathless as the thing of heaven?
My soul greets thine, unasked, unsough
Hast thou for me one gentle thought?

Paraweil! I fareweil! my far off friend!
Between us, broad bine r.vers flow,
And forcests wave, and plains extend,
And mountains in the sunlight glow;
The wind that breathes upon thy brow
Is not the wind that breathes on mine;
The star-beams shining on thee now
Are not the beams that on me shine;
But memory's spell is with me yet—
Canat thou the holy past lorget?

The bitter lears that thou and I May shed whene'er by anguish towed, Exaited in the noontide sky, May meet and mingle in the cloud; And thus, my much loved friend, though we Far, far apart, must live and move, Our souls when 90s thall set them free, Can mingle in the world of love!

This were easilary to me—
Say, would it be a joy to thee?

speak, but soon discovered that his prisoner was also unburt. He then collared him, and held him till daylight. Having discovered that he was within one mile of Napanes station, he marched his prisoner to that place, where he got assistance from the station-master, Mr. Dryden, to handcuff Ratchiff's hands behind his back. Both took their seats on the freight train which passed Napanes about eight o'clock yesterday morning, and reached Toronto in safety about five o'clock last evening, when Ratchiff was safe-ly locked up.
